About Us

“Science without religion is lame, Religion without science is blind.”

----- *Albert Einstein*

So, “A business without sign is lame and blind.”

Electrographics Sign is a complete visual display consultant and provider. In April 2000, it was established in India by M. Sirajuddin Shaikh. He has achieved vast and global experience in various fields of visual arts and advertising. As a talented artist and creative designer he has been honoured with various awards since childhood.

Our workshop of 4000 sq.ft is well equipped with wide range of machineries. The staff stands from artists, graphic designers, architects, engineers, interior designers, fabricators, painters, sign technicians and electricians. Our innovative team and machinery under one roof proves us to be a complete sign and display provider.

We offer a full range of interior and exterior signs with the latest designs. Moreover we are experts in generating wayfinding signs and installation services. Our product quality and personalized services of our experts are matchless in signage and graphic industry.

Our Mission

To provide consulting, designing, fabricating superior quality, durable and stunning array of signage solutions along with a comprehensive gamut of services to PAN India by 2025.

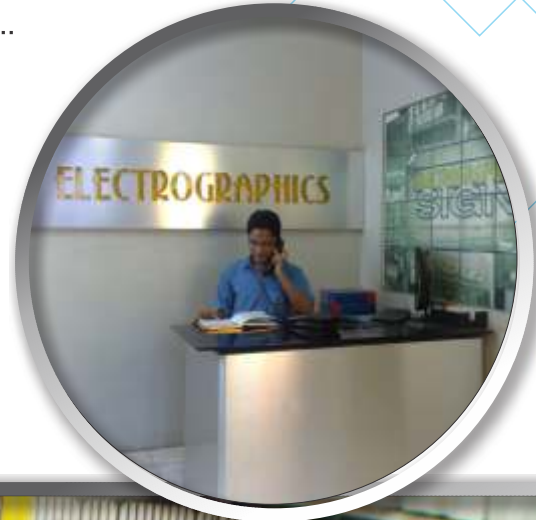

Our Achievements

It is the blessing of Almighty to give us the success in reward for our pious services. We thank Almighty Allah for showing us the right way to enjoy what is good and forbid what is wrong. We abstain from working with products, harmful to humanity such as alcohol, tobacco, etc.

Our Infrastructure

Staffs are ever ready and works as a team to get the job done successfully.

Our job takes to offer and demands, finding the best result...

Our Infrastructure

Work place essentials is produced with quality materials and workmanship to last for many years to come.
